### Phonak Audéo™ R Infinio

Audéo R Infinio is powered by the new ultra-responsive ERA chip, providing a technological leap in digital signal processing. Tested, reliable and proven, we built this device on the foundation of exceptional sound quality from the very first moment. It is more than a hearing device – it's a gateway to a world of possibilities.

#### What does it do?

Audéo R Infinio makes life sound extraordinary. Powered by the new ERA chip, the hearing devices provide a staggering 6dB SNR improvement, and market-leading connectivity takes a giant leap forward.

#### Who is it for?

- For those with mild to profound hearing loss.
- For patients looking for seamless connectivity and a device that can hold up to the challenges of everyday life.

#### What are the key benefits?

Exceptional sound quality from the first moment, with AI Dome Proposer, AutoSense OS™ 6.0 & APD 3.0.

New ultra-responsive ERA chip, providing uninterrupted hands-free calls and streaming up to twice the distance as before.

Designed for reliability and durability, a device that is ready for life, enabling patients to enjoy the extraordinary every day.
