### Phonak Audéo Sphere™ Infinio

Audéo Sphere Infinio is our premium flagship product introducing a level of clean and clear speech far beyond existing technology. It's the world's first hearing aid to incorporate a dedicated proprietary DNN sound processing chip: DEEPSONIC™.

#### What does it do?

Featuring Spheric Speech Clarity, powered by DEEPSONIC, Audéo Sphere Infinio allows patients to catch the conversation from any direction.<sup>1</sup> Audéo Sphere Infinio defines the generation of instant speech separation from noise.

#### Who is it for?

- Mild to profound hearing loss.
- Patients who need the best-in-class speech in noise performance.

#### What are the key benefits?

DEEPSONIC enables a new level of clean and clear speech, with 53x more processing power compared to current industry chip technology.\*

Spheric Speech Clarity delivers instant, all-around speech understanding in noise and expands the access to speech from any direction.

5

Every word matters. Spheric Speech Clarity doubles the chances of hearing and understanding each one.<sup>1</sup>

\* Compared to without, for moderate to moderately-severe hearing losses
